Subject: Trip McConkey - Marine Industrial Property (FYI)
[Trip McConkey.pdf](#)

Just keeping everyone in the loop –

Trip McConkey came in yesterday with this photo (attached) and asked if it would be permitted on their MI-zoned property. (I did not get the address/parcel #, but I know the general vicinity of their property).

Enclosed boat storage is outright permitted; dry stacking of boats is permitted with an approved CUP.

He said Jeannie had told his dad (Paul McConkey) that enclosed boat storage (a building) would not be permitted. But Jeannie denied she had told him this, he must have misunderstood.

I ran it by Allison, who ran it by Andrea. Andrea said he can do the enclosed (building) storage, or submit a CUP for this type of storage. I have let Trip know, and just wanted you all to be in the loop in case I am not here when he comes back.
